Professional Summary

DevOps Engineer with hands-on experience in AWS cloud infrastructure, Kubernetes, Terraform, Docker, Linux, and CI/CD automation.Experienced in infrastructure provisioning, application deployment, production troubleshooting, and monitoring using Prometheus, Grafana, and Loki. Familiar with Jenkins, GitHub Actions, Python, and Bash, with a focus on reliable cloud infrastructure and automated software delivery.

Professional Experience

DevOps Engineer Dec 2025 – Sep 2026
Sentinel Fox, PVT Ltd

- Executed an end-to-end migration of containerized applications from Amazon ECS to Amazon EKS, including Terraform configuration, AWS infrastructure provisioning, Kubernetes configuration, and application deployment.
- Provisioned and managed AWS infrastructure using Terraform and Infrastructure as Code (IaC) practices.
- Developed and maintained CI/CD pipelines using Jenkins and GitHub Actions to automate application build and deployment workflows.
- Configured and managed containerized workloads using Docker and Kubernetes across cloud environments.
- Monitored application and infrastructure health using Prometheus and Grafana, and investigated logs using Loki to troubleshoot operational issues.
- Troubleshot production infrastructure, networking, application deployment, and CI/CD issues to support service reliability.
- Collaborated with development and infrastructure teams using Git-based workflows to support releases and improve deployment processes.

Projects

Knowledge Hub – Student Content Platform

- Developed a web platform for students to publish, manage, and explore educational content.
- Built backend functionality using Node.js and Express.js, with MySQL for relational data management.
- Implemented REST APIs for authentication, article management, and content operations.
- **Technologies:** Node.js, Express.js, MySQL, JavaScript, HTML, CSS.

Education

Master of Computer Applications (MCA) 2024 – 2026
Mepco Schlenk Engineering College

Bachelor of Computer Science 2021 – 2024
Sri Kaliswari College

Certifications

- Certified Kubernetes Administrator (CKA)
- Programming in Java – NPTEL
- Cloud Computing and Distributed Systems – NPTEL

Technical Skills

Cloud Infrastructure: AWS, EC2, IAM, Amazon ECS, Amazon EKS

Containers and Orchestration: Docker, Kubernetes, Helm

Infrastructure as Code: Terraform

CI/CD and Automation: Jenkins, GitHub Actions

Monitoring and Logging: Prometheus, Grafana, Loki

Programming and Scripting: Python, Bash, JavaScript

Version Control: Git, GitHub

Operating Systems: Linux

Soft Skills

Team Collaboration, Communication, Adaptability, Problem-Solving, Continuous Learning
