## Professional Summary

DevOps Engineer with hands-on experience in AWS cloud infrastructure, Kubernetes, Terraform, Linux, CI/CD, and monitoring. Experienced in supporting production environments, automating infrastructure provisioning, and improving deployment workflows. Passionate about cloud-native technologies, Platform Engineering, and building reliable, scalable systems.

## Professional Experience

### Junior DevOps Engineer

Sentinel Fox, PVT Ltd

2026 – Present

- Support AWS infrastructure and Amazon EKS clusters.
- Build Infrastructure as Code using Terraform.
- Develop CI/CD pipelines with GitHub Actions.
- Monitor applications using Prometheus and Grafana.
- Troubleshoot production infrastructure and deployments.
- Collaborate with development teams to improve automation and reliability.

## Projects

### AWS Infrastructure & Kubernetes Platform

- Provisioned and managed AWS infrastructure using Terraform.
- Worked with Amazon EKS deployments, Kubernetes workloads, and GitHub Actions.
- Configured monitoring using Prometheus and Grafana while supporting production deployments.

### Knowledge Hub – Student Content Platform

- Developed a web platform for students to publish and explore educational content.
- Implemented authentication, search functionality, and personalized dashboards.
- **Tech Stack:** Node.js, MySQL, HTML, CSS, JavaScript.

## Education

### Master of Computer Applications

Mepco Schlenk Engineering College

2024 – 2026

### Bachelor of Computer Science

Sri Kaliswari College

2021 – 2024

## Certifications

- Certified Kubernetes Administrator (CKA)
- Programming in Java – NPTEL
- Cloud Computing and Distributed Systems – NPTEL

## Technical Skills

AWS • Kubernetes • Helm • Docker • Terraform • GitHub Actions • Linux • Prometheus • Grafana • Python • Bash • JavaScript

## Soft Skills

Team Collaboration • Communication • Adaptability • Continuous Learning
